

Be Cool Introduces New Cooling Modules for '55-'57 Chevrolet TRUCKS!

Essexville, MI -- Be Cool Inc, is excited to announce the answer to great looks and running cool with their complete *Cooling Module* for '55-'57 Chevrolet Pickups.

These modules come completely assembled including an aluminum bolt-in core support! This is the best way to improve the looks of your truck's engine compartment while keeping the engine running cool. The assembly includes either a cross flow or down flow Be Cool aluminum radiator with double 1-inch cores, dual 11-inch chrome cooling fans with billet motor caps, surrounded by a stainless steel 'Show and Go' fan shroud. The system is capped off with a Be Cool signature radiator cap (12-15 P.S.I.).

The all-aluminum radiator support also includes a vented aluminum recovery tank with a filler neck. For trucks with air conditioning, Be Cool offers a module with a dual pass condenser and custom hard lines with -8 and -6 female fittings included.

Modules are supplied with a wiring harness including waterproof relays and a temperature sensor, designed for Chevrolet Pickups, Cameos, Panels and Suburbans.

For more information, contact Be Cool Technical Department at 800-691-2667.
