

For Immediate Release

Baer Brake Systems, Phoenix, AZ., presents their Pro+ systems for the front and rear of many early domestic as well as late model performance cars such as S197 Mustangs, TrailBlazer SS, Challenger, Charger, Magnum etc. The 6P features a fully machined caliper that is standard in Red, Black or Silver finishes mounted to 14" 1pc or 2pc slot, drill and zinc plated rotors (front systems start at \$1,795.00). The 6P is perfect for the enthusiast looking to fill his wheel with a nice modern, big brake that even matches front to rear! The best part is the Pro+ is designed and built in house at Baer in Arizona!
