

ACT Releases SFI-Approved Twin-Disc Clutch Kits for the 2007 - 2009 Ford Mustang Shelby GT500

LANCASTER, CA —Advanced Clutch Technology (ACT) is pleased to introduce its new twin-disc clutch kits for the 2007 - 2009 Ford Mustang Shelby GT500.

ACT twin-disc clutch kits offer a wide range of street-friendly to race-ready kits with torque capacities ranging from 850-1450 ft-lb of torque. These kits offer two discs, which results in twice the disc surface area compared to a conventional clutch design and that means better wear characteristics, a higher heat capacity and longer life. The twin-disc kits include ACT's Proprietary Positive Lift Floater system, which offers the ability to adjust for compensation of disc wear.

Each kit offers a choice of three different clamp load designs to give unparalleled performance and moderate pedal effort. Users also have the option of choosing disc combinations that feature high torque capacities along with smooth consistent engagement. These parts meet SFI Foundation specification 1.2.

The twin-disc kits include a CNC-machined and dynamically balanced flywheel to ensure smooth, trouble-free installation and operation.

Description	Part No.	Torque Capacity
ACT Street Clutch Kit w/Heavy Duty Pressure Plate	T1S-F03	850 ft-lb
ACT Street Clutch Kit w/Xtreme Pressure Plate	T2S-F03*	950 ft-lb
ACT Street Clutch Kit w/Maxx Xtreme Pressure Plate	T3S-F03*	1125 ft-lb
ACT Race Clutch Kit w/ Heavy Duty Pressure Plate	T1R-F03	1100 ft-lb
ACT Race Clutch Kit w/Xtreme Pressure Plate	T2R-F03*	1200 ft-lb
ACT Race Clutch Kit w/Maxx Xtreme Pressure Plate	T3R-F03*	1450 ft-lb

*NOTE: *When selecting a clutch with an Xtreme or Maxx Xtreme pressure plate, ACT recommends additional firewall and master cylinder bracing to reduce excess flex, improving both pedal efficiency and driver feel.*

For more information on the components included in the kits please see attached spec sheet.

ACT's twin disc kits are a perfect complement to an already expansive catalog of over 1,300 performance clutch kits and components for more than 700 different applications. ACT clutches deliver the maximum holding power by applying a series of sound engineering advancements to new — not rebuilt — components that maximize load and reduce flex. The result is maximum torque capacity, long life and clean, fast shifting.

The company's product line features clutches and forged flywheels for the most popular vehicles in the Domestic, Sport Compact, European, and Truck markets. ACT is headquartered in Lancaster, California.

Applications

Make	Model	Year(s)	Engine
Ford	Mustang Shelby GT500	2007 - 2009	5.4L SC, 8 CYL

Kit No.	*	Torque Capacity (ft-lb)	Pressure Plate	Disc	SFI Spec	Street / Pro	Release Bearing	Pilot Bearing	Alignment Tool	MSRP
T1S-F03		850	included	SD/SD	✓	Prolite	N/A	N/A	ATF048	\$1326.74
T2S-F03		950	included	SD/SD	✓	Prolite	N/A	N/A	ATF048	\$1378.04
T3S-F03		1125	included	SD/SD	✓	Prolite	N/A	N/A	ATF048	\$1481.24
T1R-F03	*	1100	included	R6/R6	✓	Prolite	N/A	N/A	ATF048	\$1285.54
T2R-F03	*	1200	included	R6/R6	✓	Prolite	N/A	N/A	ATF048	\$1337.04
T3R-F03	*	1450	included	R6/R6	✓	Prolite	N/A	N/A	ATF048	\$1440.04

* NOT RECOMMENDED FOR STREET USE
