## **Official Licensed COPO Camaro Instruments Now Available!**

March 19, 2013, Sycamore, IL - Auto Meter is proud to be the official licensed supplier for the performance gauge pack in the new COPO Camaro. Designed to commemorate the original Central Office Production Order (COPO) system used by dealers in 1969 to offer performance models that were designed to be the quickest in NHRA Stock Eliminator and Super Stock classes. The current generation of COPO Camaros, are limited production models specially designed for NHRA competition today.

When Chevrolet Performance decided to build the COPO Camaro they knew they couldn't trust just any instrument to track the vitals of the beast. So they contacted Auto Meter, manufacturer of the most trusted instruments in NHRA and NASCAR competition, to draw on our 55+ years of racing instrument experience for help putting together the ultimate NHRA-ready competition gauge pack.

The end result is what you see here. A unique instrument set that was designed to the Chevrolet Performance COPO team's exacting standards composed of:

- Racing Shift Light tachometer that can swing from 0-10,000 RPM in just 333 milliseconds, ensuring instant, accurate response to changes in engine RPM, enabling the driver nail their shift points with confidence, every time.
- Precision full sweep electric instruments for Brake Pressure, Fuel Pressure, Oil Pressure, Transmission Temperature, and Water Temperature powered by the same digital stepper motor drives and motorsports sensors found in today's NASCAR Cup cars.
- A short sweep electric voltmeter mounted in the trunk for easy monitoring of vehicle electrical system health in the staging lanes and pits.
- All of the above are emblazoned with the gold bowtie logo, finished with classic styling, and backlit by white LEDs for unmatched visibility day or night.

While we might not all be able to get our hands on one of the limited edition COPO Camaros, Auto Meter is pleased to be able to offer you the COPO Camaro Gauge Pack instruments separately to help complete your latest Chevrolet project.
