

BAER®

FOR IMMEDIATE RELEASE:

JEEP JK - 2007-2015

Baer's Pro/SS4 systems for the 2007-2015 Jeep JK. The Pro features a 6 piston caliper mounted to a 13.5" 1-piece slot, drill, zinc plated rotor. The rear SS4 features a 4 piston caliper mounted to a stock size slot, drill, zinc plated rotor to match the front (and retains the factory park brake). Designed to fit into many aftermarket 17" wheels, and is a complete bolt on. Rear features Baer's unique Verislide bracket design which allows the fixed caliper to float with the c-clip axles. Shown with optional FireRed powder coat finish.
