## For Immediate Release

### ***Be Cool LS Swaps for Chevrolet/GMC Trucks C-10 1967-'72, 1973-'87***

Essexville, MI – Be Cool, America's leader in power cooling systems, has done it again with their LS Swap Series Cooling Modules for Chevrolet/GMC C-10

Be Cool LS Swap Modules are designed and engineered with correct-sized inlets, outlets and LS steam ports for easy, hassle free installation. Be Cool's LS Swap Modules include a Be Cool Direct-Fit Dual-Pass LS Swap Aluminum Radiator, Euro-Black Shrouded 13" Hi-Torque Electric Fans, Stainless Steel Fan Shroud Mounting Brackets with Hardware, easy-to-use Wiring Harness with 40 AMP Relays and LS Temperature Sending Unit, Diamond-Cut Aluminum vented Recovery Tank, and to Top -it-Off a Billet Aluminum Be Cool *Signature* Radiator Cap. These Modules are also available in Show Polished Finish too!

Be Cool LS Swap Radiators feature a 100% pressure tested performance-grade dual 1" core, fabricated tanks, heavy duty 7-plate transmission cooler (for automatic applications), OE brass drain petcock, and welded epoxy-free construction.

Be Cool Radiators are proudly Made in the USA and backed by a limited one-year warranty-TWO YEARS with the cooling system completely filled with Be Cool's Be Coolant Super Duty Antifreeze!
