

Inglese™ EZ-EFI 2.0® 8-Stack Induction Systems For Big Block Chevrolet Engines

Memphis, TN – The latest aluminum intake manifold from Inglese™ is cast specifically for Big Block Chevrolet engines and available in kits for hot and street rods, providing a classic look but with the increased performance and drivability fuel injection offers.

A complete bolt-on kit (Part# NG4104E for rectangle port or NG4105E for oval port) supporting up to 700 HP includes 50mm throttle bodies, stacks, FAST® EZ-EFI 2.0® electronics and wiring harness, O2 sensor, injectors, chrome-top filters and billet aluminum fuel rails engineered to provide clearance between the fuel rail and distributor cap. No hunting for or adapting parts is necessary. A kit (Part# NG4104A for rectangle port or NG4105A for oval port) that does not include electronics, wiring harness, sensor, injectors and filters is also available, such as for use with FAST® XFI Sportsman™.

Quick Facts

Product: Inglese™ EZ-EFI 2.0® 8-Stack Induction Systems For Big Block Chevrolet Engines

Part Number: #NG4104A (rect. port), #NG4104E (complete kit), #NG4105A (oval port), #NG4105E (complete kit)

Street Price: \$4,899.95 (w/o electronics); \$6,699.95 (complete kit)

Social Media Pitch: Inglese™ EZ-EFI 2.0® 8-Stack Induction Systems for Big Block Chevrolet Engines come in a complete kit for hot & street rods

Features & Benefits:

- Cast manifold is specific to BBC applications
- Fuel rails engineered to not interfere w/ distributor cap
- Ready to install in street rods & hot rods

About Inglese™

In 1977, Inglese™ began with employees fine tuning Weber carburetors on Cobra roadsters with the goal of jetting and tuning the carbs prior to installation to perform perfectly, right out of the box. This paved the way for Inglese™ to provide parts and better tuning while creating visually stunning induction systems for some of the fastest and most exotic Fords on the planet, and opened the door for development of Weber systems for other American V8s, as well as the manufacture of the company's own intakes and components. In 2007, Inglese™ joined the COMP Performance Group™, who broke tradition by introducing Inglese™ Electronic Fuel Injection Systems, while continuing to offer popular Weber carburetor systems.
