

## IMCA Approves FAST™ E6 CD Circle Track Ignition

**Memphis, TN** – The IMCA Executive Committee has approved the FAST™ E6 CD Circle Track Ignition for use in the racing series' Modified, Stock Car and Late Model divisions.

Following a review to ensure the FAST™ E6 CD Circle Track Ignition (part no. 6000-6700) conforms with established ignition rules, IMCA president Brett Root accepted its addition to the series' approved equipment list in March 2017. The approval further establishes FAST as a leader in fuel air spark technology, particularly in the ignition market it entered two years ago.

The FAST™ E6 CD Circle Track Ignition produces multiple, full-voltage sparks for reliable performance through high RPM and a built-in 20-degree start retard for easier cranking. An included sequential rev limiter can be adjusted through sealed rotary dials, in 100 RPM increments, through 9,900 RPM.

Designed with circle track racing in mind, the ignition box is encased in soft urethane for protection against moisture and vibration and also includes sturdy vibration mounts and Weatherpak connectors for easy installation. A kit (part no. 6000-6701) including a FAST™ E93 Coil and aluminum mounting panel is also available.

### About FAST®

In 2001, FAST® was acquired by the COMP Performance Group™ and moved its headquarters to Memphis, TN, to become the popular electronics company that we know today. After more than a decade in the performance aftermarket industry, FAST® is the recognized leader in advanced EFI technology. Now, not only does FAST® offer the components to adapt virtually any engine to fuel injection, it is also an emerging force in the ignition market. With the latest in easy-to-use electrical components, the experts at FAST® have everything that you need to make high-tech horsepower. Mr. Terry Johnson  
FAST  
1830 Holsonback Drive  
Daytona Beach FL 32117

Dear Mr. Johnson:

The IMCA Executive Committee has had the opportunity to review the FAST E6 ignition box submitted to the IMCA office for ruling on its conformity to our rules.

We have determined that the submitted product meets the ignition rules outlined in the official IMCA Modified, Stock Car and Late Model rules.

If this product appears at an IMCA sanctioned event in the same condition/form as when approved, you can be confident our members will be allowed to compete with it.

IMCA will retain this product for future reference.

If you have any questions, comments or concerns, please feel free to give me a call at the IMCA office, (319) 472-2201.

Sincerely,

Brett Root  
President, IMCA
